

Quick-check

COMPARISON:	LAVANTUS® air duct highly insulated rigid foam	Concrete pipe	Plastic pipe PP or PVC
Duct type used for air transport			
Spezifikation	Specifically made for underground air conduction	Originally for the transport of waste water	Originally for the transport of waste water
Time saving at installation	●●● fast and solid connection of 3 m ducts with LavantusGrip clamp	— has to be put together custom-fitted with heavy machinery	●● glued, welded, or put together
Weight saving	●●●	—	●●
Thermal protection	●●● pre-insulated air duct	— uninsulated	— uninsulated
Stability	●●	●●●	●
Prevention of condensate	●●●	—	—
Application in hygiene sensitive areas	●●● microbially inert surfacee	—	●
Staining/surface	●●● smooth and closed-pored	— rough and open	●● smooth

Legend: ● = average ●● = good ●●● = excellent — = not sufficient or not existent
